CS2. Hackers bypass ‘vein authentication’ biometric tech before it goes mainstream

Economic Times – Jan 01 , 2019

The year 2018 saw several tech companies working hard and delivering some of the best biometric authentication tech on devices. Until now we have seen iris scanner, face scanners and optical fingerprint scanners securing content on devices. However, there’s a new biometric tech that is hardly used anywhere – vein authentication. And this too has been ha
