M4. UIDAI launches new mAadhaar app for Android and iOS devices

Express Computer – Nov. 27 , 2019

To make the mAadhaar application more secure, the Unique Identification Authority of India (UIDAI) has launched its new version, both for Android and iOS devices. According to the UIDAI, users should delete the previous version and install the new version immediately. Also, third-party applications are not supported by the UIDAI.
