CS1. F-Secure finds firmware weakness in laptops

Economic Times-Sep 14, 2018

PUNE: Consultants from cyber security provider F-Secure have discovered a weakness in modern computers that attackers can use to steal encryption keys and other sensitive information. Attackers need physical access to the computer before they can exploit the weakness. But F-Secure Principal Security Consultant Olle Segerdahl says once achieved, an adversary can successfully perform the attack against even the most hardened, secure computer in about 5 minutes.

CS2. Cocon to focus on data security

Times of India-Sep 14, 2018

*THIRUVANANTHAPURAM: The live demonstration of latest mode of hacking personal data by face recognition using a camera, even from a large crowd of audience, will be the highlight of the 11th edition of the international cyber security conference (Cocon-2018) co-hosted by Kerala Police. The two-day conference will be held on October 5 and 6 in Kochi. The list of speakers for this year's conference include head of **cyber security** at the prime minister's office Gulshan Rai; chairman of meta council...*
