04. India bans Mi Browser Pro; Xiaomi says it is complying with all data privacy requirements under Indian law

Financial Express – August 05 , 2020

Xiaomi's controversy-ridden Mi Browser Pro has reportedly been banned in India. The ban is part of the government's wider crackdown on apps with links to China and is directed towards ensuring the safety and sovereignty of the Indian cyberspace. It seems the regular Mi Browser, which is the default browser in all Xiaomi phones, is allowed for now. The Mi Browser Pro does not come pre-installed on Xiaomi phones and is available on the [Google](https://play.google.com/store/apps/details?id=com.miui.browser) Play Store – the app has been removed at the time of filing of this report.
