O2. [View: How the rapid adoption of digital technology has transformed governance in India](#)

Economic Times. May 03, 2018

In the last few years, governance in India across sectors has been redefined through business process reengineering, technology and data analytics. **By Amitabh Kant:** During my tenure in Kerala, I got a unique opportunity to work in the fisheries sector. The task was to improve the livelihood of traditional fishermen. The sector was riddled with middlemen, and fishermen were getting only 25% of the market price of fish.
